PROGRESS TWIN

The Progress twin is a twin column height-adjustable pneumatic standing desk. The desk works great with a 30" x 60" work surface and has a max lifting capacity of 35 pounds.

Mobility in your office

With no need for power cords, your desk is finally free to move around the office.

Faster desks get used more

Pneumatic desks are a minimum 8x's faster than a motorized desk.

Lower carbon footprint

Motorized desk draws power all day long even at night when you are not using them.

Material	Precision steel tube, powder-coated or chrome-plated
Guide	Roller Cage system
Dimensions	Outer profile (70mm) 2.75" x 2.75" Inner profile (63 mm) 2.48" x 2.48"
Adjustable range	18"
Installation height	25" to 43"
Max. lifting force	User specified
Drive	Internal, lockable compression spring
Max. bending moment	Static 100 Nm up to BH=800, above 150 Nm Dynamic 100 Nm
Lifting speed	100+ mm/sec
Base	A-Symmetrical Trapezoid or User specified
